

SOMETIMES YOU EITHER MAIL TODAY, OR YOUR MESSAGE GETS LOST IN THE CROWD

Sometimes the world changes in an instant, and everything depends on a fast reaction.

When you need optimum direct mail speed with no compromise, you need INTEGRAM's AIR-GRAM format with guaranteed same-day mailing.

Simply get your materials in by 10 AM of any business day, and they'll mail out that day, *guaranteed*.

As with a standard AIR-GRAM option, your same-day mailing can include signatures, logos and photo-quality graphics.

You'll receive a finished sample of your mailing just hours after we receive your order, and by the end of the day, your finished mailing will have been whisked away for direct transport to over 100 Post Offices nationwide.

Recipients will be reading your mail 1 to 2 days from the morning you order, making AIR-GRAM the ultimate solution when every hour counts.

And when we say guaranteed same-day mailing, we mean it, or it costs you nothing! (*see below.*)

The Same-Day AIR-GRAM is designed for maximum speed of production, yet it offers up to a two-sided legal-size letter with optional perfed reply.

When sudden developments require a fast response, a Same-Day AIR-GRAM will reach supportive recipients with the appropriate urgency—and stress the necessity for an immediate reply.

Everyone at INTEGRAM knows our mission: Meet every deadline. Nail every detail.

We make our money-back promise with confidence because we have never missed a same day deadline when the materials are in by 10 AM.

Our people are so committed to maintaining this unbroken string of success that we've been known, for example, to pull IT people into the mail shop for added manpower when a mailing must get out. We are serious, we are zealous and we are uncompromising in our commitment to meet your needs as promised. After all, INTEGRAM exists to deliver.

From now on, you can look forward to the next time you have to get a mailing out fast, and know that INTEGRAM will deliver. Guaranteed.

No doubts. And no excuses.

(over, please)

Everything, down to the windowed BRE, was designed for ultimate processing speed.

As you might expect, every inch of our same-day letter package was designed with production efficiency in mind. Even so, you have your choice of letter lengths and the option of adding a perfed reply device.
