

TURN TO INTEGRAM STATEMENT PROCESSING TO **CUT YOUR COSTS AND BUILD YOUR BRAND**

Maintaining an in-house statement-processing department used to make perfect sense for many companies. In today's digital age, that time has passed.

As more and more customers request to receive their invoices and statements in electronic form, the cost efficiency of maintaining an in-house department has quickly disappeared.

A mail production department is like a small business of its own, requiring a substantial investment in staff and equipment, including the costs of recruiting personnel, salaries and benefits, training, space, equipment upkeep and more.

And as with any self-contained enterprise, when equipment goes down or other problems occur, progress grinds to a halt. The cost of getting statements out in such an emergency situation can be exorbitant, but what choice do you have?

You can choose to call INTEGRAM today, and discover a better solution in easy reach
